How It is Done.

It has been suggested that the rat ification of the Fifteenth Amend. ment by the Southern States should be engrossed on eartridge paper written with the point of a sword, and forwarded to Washington by a corporal's guard. This would certainly be a fair illustration of the mode adopted to enforce the ratification of this vile Amendment.

Of all the jugglery every practiced by the party in power, this last is the most contemptible, and if it were not so serious in its immediate ef feets upon the country, would excite the humorous feelings of every one who watches the manipulations of its managers. 5

A military province is brought up from its degraded position, propped up by negroes and scallawags, i called a "State" while the ratitication is choked out of it, and then over it goes into the depth of milita ry despotism, with the negro heel upon it. If then the mot of it. negro caressed and kissed, the would be State can obtain representation in Congress, sends a Yankee or a negro to Washington, and is again honored with the title of "State." What a sham is all this upon government!

The corruption of the Radical party will work its downf li. and this Fifteenth Amendment is one of the mightiest levers put into the hands of the Democrats to be used in its destruction.

It is a suicidat, and short-sighted policy, for the Radicals to select an nstrument that can be so easily and effectually turned against them .-They will too late ery for reliel from their own misdoings.

They eannot shake their "gory locks" at the Democratic party when suffering from the evils that will return to plague the inventor. New issues and a new era is presented in our political history and the Demoeratic party has an open and plain road to march through the ranks of the cowardly enemy to the heights of victory.

We repeat that the Radicals have given us a stick to break their heads. It would hardly be human nature not to use it.

Ayer's Hair Vigor, H. LAYSON.

For the Renovation of the Hair. The Great Desideratum of the Age.

A dressing which is at once agreeable healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and

freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, enred by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saveil for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

merely for a HAIR DRESSING,

nothing else can be found so desirable Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume. Prepared by Dr. J. C. Ayer & Co.,

remedy for jumonary companies. In mough a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to core the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to midder forms of discusse and to young children, it is at the same fine the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croop, it should be kept on hand in every family, and indeed as all arc sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumptions is though the carse seemel settled, have been completely cured, and the patient restored to sound bealth by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, nuder the Cherry Pectoral.
